

# IS YOUR DATA REALLY SAFE?

Brains II Data Recovery Services ensure that your business can continue to operate effectively even when the unexpected occurs. Our state-of-the-art data retrieval technology recovers your mission-critical data:

- **Promptly** Our quick response times help you to minimize costly downtime
- **Securely** We protect the confidentiality of your data
- **Cost-effectively**

Brains II has been providing multi-vendor IT service and support to thousands of mission-critical installations for thirty years.

Our expertise in service and support for hardware and operating systems can effectively manage your entire IT infrastructure.

Brains II has many flexible service plans to meet all your budget and IT needs. We provide problem escalation procedures that can be customized to meet your requirements, upgrade and removal services, data center relocation and much, much more! For equipment not under a service contract, Brains II performs time and materials services, and provides depot service for easy-to-transport items.

## Data Recovery Solutions From Brains II

### Data Recovery for all media makes, models and operating systems

- **Hard Disk Drives** (Laptops, desktops, servers, RAID systems, SAN, NAS and more)
- **Tape Media** (DLT, SDLT, LTO, AIT, 4mm, 8mm and more)
- **Removable Media** (Optical, Jaz, Zip, SyJet, SyQuest, Floppy, Flash and more)
- **Operating Systems** (Windows, DOS, Novell, UNIX, Macintosh and more)

## The Process

- Send us your media for data recovery
- A comprehensive diagnostic is performed by highly-trained engineers
- A no-charge evaluation, including a firm price quote and the time required for recovery, is provided within 24 hours of receipt
- It is rare that absolutely no data is retrievable based on our proven processes

## Brains II has the DR solution your company needs.

We are one of the most trusted names in the Canadian IT industry.

Along with our trusted partners, our goal is to:

- Recover your mission-critical data, even when other conventional methods fail
- Provide an individual project analysis and then customize a plan of action
- Return your data with the same characteristics and identifiers as pre-failure
- Duplicate your data bit by bit using state-of-the-art replication technology
